2025/26 Edition 20

Friday 13th March

Our Learning Journey continues...

As we continue to move through the term and towards the Easter break our children are continuing to work diligently through our curriculum. Currently we are carrying out Teacher Assessments in Maths and English. The purpose of these is to give class teachers a current snapshot of where each child is based on end of year outcomes. This will help teachers plan effectively for the summer term and provide focus for small group interventions. Class teachers will be able to provide some general feedback on this at our upcoming Parents Evenings. All families should have received Parents Evening information via email. If you have not received this letter, please speak with our school office.

In the meantime, our Kestrels have been busy working through our non-core curriculum and have been enthusiastically designing, making and developing their hands on practical skills. There is always something exciting going on in school and we enjoy sharing this with our families.

Mother's Day Breakfast

Thank you to our 'Friends of' for organising our very first Mother's Day Breakfast. It was a wonderful event made possible by their hard work; and the support of families of their other events over the school year. It was fantastic to see the children taking this chance to share this moment with their mum or special person in their life. Thank you also to the staff that helped make this event such a success.
